ABOUT ME

Self-driven individual skilled in web development and software testing, seeking an entry-level role to contribute to innovative projects.

SKILLS

- **Languages:** JavaScript, React, React Native, Node.js, Express.js, Tailwind, PHP, JSON
- **Databases:** MySQL, MongoDB
- **Tools & Utilities:** Git, Github, Postman, Codespaces, Power Platform
- **Designing:** Figma, Adobe Photoshop, Premiere Pro, DaVinci Resolve

PROJECTS

MovFlix, Movie/Shows Streaming Website

- Built a React streaming platform with search, filters, responsive UI (Tailwind), routing, pagination, and hooks.
- Integrated TMDB API for live movie/show details, posters, and ratings.
- Used Context API for global state and added multi-server player with season/episode support. [Live](#) | [GitHub](#)

Health Tracking Application

- Developed a web app to centralise fragmented medical data, provide trend analysis, and deliver actionable insights for personal health management.
- Implemented secure authentication with Google OAuth 2.0 & JWT, global state management with Context API, custom hooks, and responsive UI with Tailwind CSS, Shadcn/ui, and Radix UI. [Live](#) | [GitHub](#)
- Built advanced features including PDF report parsing, dark/light mode, and interactive data visualisations.

Chatbot Based Ticketing

- Developed a responsive museum ticket booking website for the Smart India Hackathon using HTML, CSS & JS for the frontend and Python for the chatbot.
- The model is trained on Meta's Ollama, ensuring smooth and seamless interaction with the users.
- Payment is integrated within the chatbot using Razorpay. [Live](#) | [GitHub](#)
